A Message from Board President Mark Burgess

I have been a member of the Chamber since 2010. I didn't join the Chamber to necessarily increase my business. I joined because I wanted to participate more in the community where I live and work.

Being a member of the Chamber helps keep me informed regularly about events in my town. This includes all kinds of events from our members, businesses, and charities throughout the town.

I can also participate in and contribute to the overall well being of my community. The Chamber provides opportunities for advertising, sponsoring events, getting my name out there, and increasing visibility. I feel that being a member of the Chamber also adds a certain level of credibility to my business. Networking opportunities offer the ability to form relationships, work with other businesses, and refer them to other members and the community.

So, I didn't join the Chamber to get business; I joined the Chamber to do business, and participate in the community.
